

Class of 2018

Join

The NSA-Virginia Speaker Academy

The on-ramp to your speaking business. Class of 2018 forming now!

The NSA-Virginia Speaker Academy is the local cohort learning system that connects you with others like you, keeps you on track through steep learning curves, and accelerates your speaking results while staying close to home.

This cohort learning system prepares you to gain confidence and insight into selecting or advancing ideas we've had forever... We learned so much about being a professional speaker." – Marva Boatman, Class of 2017

Perfect for when

- You are new to professional speaking but not new as an expert in your field
- You are new as an entrepreneur but a veteran in your subject matter
- You are experienced as a trainer, coach, author or consultant but growing your speaking business

Because

- It is easy to feel **overwhelmed** by the number of things to do and what order to do them in – for you.
- You keep getting **stuck**, frustrated, or off-track on your own.
- You don't have **time** to figure it all out by yourself.
- You **learn best** by working with others in a cohort rather than a remote setting.
